

# MANSI

## Software Engineer

Pre final year student, Receptive ,constantly interested in new technology

### COMPUTER PROFICIENCY

#### Programming language

- C/C++
- Java -basics
- Python- basics
- Shell-script
- Data structure and algorithms

#### Database -management

- MySQL
- MONGO

#### Web Designing

- Html
- Css
- Javascript
- Angular
- Angular material
- Reactjs \*
- Wordpress
- Bootstrap
- Sass
- Sanity
- Tailwindcss

### Skills

- Communication
- Problem solving
- Planning
- Team-work
- Creative ideas
- SEO

### Education

#### Parul institute of engineering and technology

Current cgpa - 8.53 (5th sem)

#### VYAPAR MANDAL PUBLIC SCHOOL

Class XII (HSC) 88%

Class X (SSC) 10.0 CGPA

### EXTRA CURRICULAR

#### ACTIVITES Technical coordinator in mathematics day event

Footloose coordinator in DHOOM

(Parul's Cultural event)

Coordinator in flash mob

### ACHIEVEMENTS AND

#### HONOURS

Certification of PYTHON AND

NETWORK SECURITY By SHAPEAI

in collaboration with DEVELOPERS

#### STUDENT CLUB.

Certification of PROGRAMMING FOR

EVERYBODY (GETTING STARTED

WITH PYTHON) authorised by

UNIVERSITY OF MICHIGAN through

coursera

SAP TRANIEE

### EXPERIENCE

#### FRONT-END DEVELOPER IN MARSCAPITAL - 18/07/22 -15/09/22

Utilized **Angular, SASS for styling, and integrated Node Mailer** .

Transformed designs into responsive user interfaces .

Collaborated cross-functionally for bug fixes and optimizations.

Enhanced email communication within applications.

Contributed to successful delivery of polished web solutions

#### GRAPHIC DESIGNER AND WEB DEVELOPER IN TRAKKY - 2/01/23-2/04/23

Created websites using WordPress.

Combined graphic design skills with web development expertise

### PROJECTS

#### REAMAZON - A REACTJS AND MONGODB-BASED AMAZON CLONE

"**ReAmazon**" is a **dynamic web application** built using **ReactJS** and **MongoDB**, designed to replicate the core functionalities and user experience of the popular e-commerce platform, **Amazon**. This innovative clone provides users with an immersive shopping experience, complete with product listings, shopping cart management, user authentication, and seamless database integration.

#### FOOD PARADISE

"**Food Paradise**" is a captivating **web application** crafted using the **Angular framework** and **Bootstrap styling**, designed to immerse users in a virtual culinary experience. This gastronomic delight showcases a diverse array of food and interactive features, offering a delightful blend of functionality and aesthetics.

#### JARVIS

"**Jarvis**" is a **sophisticated and interactive virtual assistant** designed to streamline daily tasks and enhance user productivity. Developed using **Python**, this cutting-edge application leverages natural language processing and artificial intelligence to provide users with a personalized and intuitive conversational experience.

#### VIRTUAL MOUSE

"**Virtual Mouse**" is an innovative **computer vision project developed in Python**, utilizing the power of **OpenCV** and **MediaPipe libraries** to create a cutting-edge interface that allows users to **control** the **computer cursor** using **hand gestures**.

This interactive application offers a unique and intuitive way to navigate and interact with the digital environment.

#### PORTFOLIO

"**Portfolio**" is an engaging and visually captivating **website** crafted using **ReactJS, Bootstrap, and Animated.css** to present a comprehensive **overview of my skills, projects, and experiences**. This dynamic platform serves as a digital representation of my professional journey and serves to highlight my expertise, achievements, and creative endeavors.
